Orion LED Series

Design QSC35 Wall Mount Luminaire
14 Watt, 28 Watt or 42 Watt Super Bright White LED
Up To 50,000 Hour Lamp Life

THINK GREEN WITH LED LIGHTING

LED's (Light Emitting Diodes) are more efficient than traditional H.I.D. (High Intensity Discharge) light sources consuming as much as 75% less energy.

H.I.D. Light sources (Metal Halide and High Pressure Sodium) are rated at 10,000 to 20,000 hours useful life. LED's are rated up to 80,000 hours providing much lower maintenance costs.

LED fixtures providing better energy efficiency and a better quality of useable light.

Specifications

Housing: Aluminum die-cast housing with hinged cast aluminum door and clear tempered glass lens. One piece silicone gasket provides water and dust-tight operation. See finish note.

Reflector: Anodized aluminum, computer designed for maximum heat dissipation for long LED lamp life. LED lens provides asymmetrical light distribution, **classified full cut-off dark sky compliant**.

Lamp: Max-Bright white 14W=800, 28W=1600 or 42W=2400 Initial lumens, Included 120V—277V LED driver.

Lumens: Initial lumen values on LEDs vary depending on brand and color temperature of the LEDs. Consult factory for information.

Finish: White, black or bronze detergent cleaned, prime coated chip resistant powder urethane polyester coating. Contact factory for other colors.

Photometric Information: Contact factory.

Labels: U/L, CUL listed suitable for wet location.
